PROFESSIONAL SUMMARY

Results-driven Software Engineer with 5+ years of professional experience at Meijer Corporate delivering full-stack and mobile solutions at enterprise scale. Proficient in C#, ASP.NET, Blazor, Razor Pages, Android, SQL (Teradata), and Microsoft Azure. Proven track record designing and delivering production-grade applications spanning mobile, web, and cloud infrastructure. Strong academic foundation from Michigan State University with a history of Dean's List recognition and national honors society membership.

TECHNICAL SKILLS

Languages: C#, C++, Python, Java, Kotlin, Elixir, HTML, SQL, Visual Basic, CSS, JavaScript

Frameworks & Platforms: ASP.NET, Blazor, Razor Pages, Android SDK (Java/Kotlin), Android Jetpack, .NET, SignalR

Cloud & DevOps: Microsoft Azure (Function Apps, Web Apps, Resource Groups, Storage Accounts, Cosmos DB, Blob Storage), Azure DevOps, CI/CD Release Pipelines

Databases: Teradata SQL, SQL Server, SQL Report Builder

Tools & Other: Visual Studio, Android Studio, Azure Storage Explorer, Git, Azure AD, Kafka, Offset Explorer, Barcode Scanning, Signature Capture, REST API Integration, Photoshop, Unity

PROFESSIONAL EXPERIENCE

Meijer, Inc. (Corporate) | Software Engineer

Grand Rapids, MI | January 2020 – Present

- Designed, developed, and maintained enterprise C# and ASP.NET applications supporting pharmacy checkout and retail point-of-sale operations.
- Developed a native Android mobile application integrated with the pharmacy point-of-sale system, featuring hardware barcode scanning, customer signature capture, in-app PDF document preview, and HIPAA-compliant communication consent and disclosure presentation workflows.
- Architected and delivered multiple Razor Pages and Blazor web applications supporting internal business workflows and operational tooling.
- Authored and optimized complex Teradata SQL queries to support data analysis, reporting, and business intelligence requirements.
- Provisioned and configured Microsoft Azure infrastructure—including Function Apps, Web Apps, and Resource Groups—to support scalable application deployments.
- Established and maintained CI/CD development and release pipelines in Azure DevOps, streamlining deployment workflows across multiple environments.

D.C. Cook Nuclear | IT Architect Co-Op

Bridgman, MI | May 2017 – August 2018

- Completely reprogrammed legacy applications and upgraded them to Windows 10-compatible versions.
- Improved and extended existing projects by adding new forms and reports.
- Imaged and configured large groups of computers for critical project deployments.
- Primary languages: C# and SQL. Collaborated remotely via Remote Desktop and Skype while attending college.
- Managed overall project performance and assisted in delivering application updates affecting large user groups.

Lake Michigan College – Black Rocket | Software Development Instructor

Benton Harbor, MI | Summer 2016

- Instructed multiple classes per day of up to 20 students aged 8–14 in software development concepts.
- Coordinated engaging, age-appropriate daily assignments and hands-on activities.

Lake Michigan College | Assistant Math Teacher

Benton Harbor, MI | January 2013 – January 2014

- Provided personalized in-class math assistance to a class of 30 students.
- Reviewed and graded student exams.

EDUCATION

Michigan State University | Bachelor of Engineering Technology: Computer Science & Programming

East Lansing, MI | Graduated May 2019

- 3.69 GPA
- Dean's List: Fall 2016, Spring 2017, Fall 2017, Spring 2018

Lake Michigan College | Associate of Science: Mathematics

Benton Harbor, MI | Graduated May 2016

- 3.98 GPA | Awarded High Honors

HONORS & ACHIEVEMENTS

- Phi Theta Kappa International Honor Society Member
- National Honor Society Member (2012–2016)
- 2nd Place – Lake Michigan College Regional Math Test (2013)
- 4.0 GPA in Calculus I through Calculus IV and Differential Equations
- 2nd Place – Visual Basic Programming Competition, Business Professionals of America (2010)
- 3rd Place – Visual C# Programming Competition, Business Professionals of America (2011)
- TechSmith-Sponsored Capstone Team Project Participant – Michigan State University
- Delivered a proof of concept at an internal company hackathon incorporating camera-based barcode scanning, photo capture, and real-time image filter and enhancement capabilities.
